In-line flailmower Roadmaster 07 modulair

The Roadmaster 07 modular is an inline flail mower that can be fitted with a rear discharge, conveyor or auger. Like the regular Roadmaster 07, the modular version features:

- » Heavy-duty power transmission
- » Parallel guide for side-shift
- » Various suspension options
- » Standard ECOMOW® mowing head for high crop throughput without high power requirements
- » Optional front trailed linkage allows a front-mounted machine to behave like a trailed machine

In-line mower Roadmaster 07 modulair
